The proposal comes from Chinese sources. It is recognized that the Western nations will have a large interest in the determination which China shall make as to the future administration of Manchuria, and especially that they will insist on the open door of commerce and progress. DIARRHOEA

IN TERRITORY PERPLEXED

Contest Over Separate or Single

A short meeting of the committee representing the fraternal societies of the Muskogee, I. T., Sept. II.—Following the country and the National Fraternal Sanitarium Association was held at the South. Board of the proposed State of Segnovah

Muskogee, I. T., Sept. II.—Following the announcement of the Supreme Election Board of the proposed State of Sequovah that the political parties were entitled to make nominations for Congressmen to be voted upon at the coming Constitutional Convention, has come a good deal of speculation as to what will be done.

This is, of course, a separate State move in the strictest sense of the word. R. L. Williams, who is the Democratic National Committeeman for Indian Territory, and P. L. Soper, who holds the same hence for the Republicans, are both single State advocates. The question is whether they will call a convention to nominate candidates under the existing circumstances.

But the speculation does not step there. It is a question whether or not the desire of the many candidates for Congress, who are lurking in every nook and corner of Indian Territory, will pars up the chance for a nomination just because it is a separate statehood move, if they chance to favor the single State plan. They fear that, should separate statehood fail, to be nominated for this election would hurt their chances of getting a nomination under single statehood.

On the other hand, they realize that even in event of failure of separate statehood, the machine now forming is more than likely to control the politics of indian Territory in the future, and they cannot weil afford to run counter to the separate State sentiment on that account. This applies to both Republicans as well as Democrats.
